### IVV: Luxury Italian Glass Since 1952

The Made in Italy, to IVV, is a manufacturing philosophy, the symbol of “being Italian” in the world. It is the result of an organic process, in which the conception and the production are intimately linked, sourced from the culture of our territory: Firenze, Toscana, Italia.

Passionate About Glass Since '52 we breathe in searching for variety in glass form and color, while treasuring essential human values. Our story is of work, of invention, of initiative and of consistency.

Transparency, brightness and resonance are the adjectives that feature the high quality IVV glassware. We achieve them by melting the most selected, refined and expensive, raw materials, firing the blend to very high temperatures to burn-out impurities. IVV's soda lime glass is lead free, solid colours are obtained with non-polluting oxides, the glass is internally fully recycled. The unique quality of IVV glass is the result:

- Uniquely transparent with shiny reflections
- Very resistant and durable
- Environmental friendly.
